Experience

Unique Driving Service

Self-employed

07.2023 - 12.2023 Bridgeport, CT

- Conducted user interviews, surveys and competitive audit to better understand the needs and goals of users while using a personal chauffeur app.
- Created user personas, user flows, wireframes and fully functional, interactive prototype for development of Driven app final design.

DX Group

UX/UI Designer

04.2022 - 06.2023 Stamford, CT

- Conducted appropriate UX research methods to understand user goals and concerns.
- Used Figma or Adobe XD to design prototypes and wireframes which I used in the development of websites and apps.
- Worked remote. Agile-Scrum development, used GitHub to manage issues and version control.

Beachball

Web Designer

07.2021 - 04.2022 Stamford, CT

- Used Photoshop, Illustrator, and Premiere to design the presentation of 30 projects for agency's WordPress portfolio site.
- Simplified code and built reusable components to enhance website performance, improve readability and reduce clutter, ensuring client's ability to manage site going forward.
- Worked entirely remote. Utilized an Agile approach and maintained consistent communication with weekly video meetings to confirm design consistent with business goals and requirements.

Co-Action Lab

Graphic Designer

06.2020 - 10.2020 Stamford, CT

- Designed content and asset using Photoshop, Illustrator, and After Effects for Stamford Symphony first virtual gala to research donors amidst the pandemic.
- Collaborated with 6 member team to create targeted product video for B2B campaign, which resulted in a 5% increase in engagement.
